12 AGENT SKILLS.

The list from Builder's corner in Broski Talk Ep. 1, *The Claude You Can't Use*: what each skill does and where to get it. Every link goes to the skill's own GitHub repo.

01

gstack

By Garry Tan: your agent as CEO, tech lead, designer and QA.

github.com/garrytan/gstack

02

Superpowers

Plan, test, debug and review like a senior engineer.

github.com/obra/superpowers

03

Taste Skill

Better layouts, type and animation.

github.com/Leonxlnx/taste-skill

04

UI/UX Pro Max

Palettes, font pairings and clean UI.

github.com/nextlevelbuilder/ui-ux-pro-max-skill

05

Marketing Skills

Copy, SEO, pricing and launches.

github.com/coreyhaines31/marketingskills

06

Last 30 Days

Research reports from the last month of Reddit, X and more.

github.com/mvanhorn/last30days-skill

07

Frontend Slides

Pitch decks you share as a link or PDF.

github.com/zarazhangrui/frontend-slides

08

No AI Slop

Makes your writing sound human.

github.com/petergyang/no-ai-slop

09

Brag

Launch and demo videos of what you built.

github.com/latent-spaces/brag

10

Claude for Legal

Anthropic's plugins for contracts and NDAs.

github.com/anthropics/claude-for-legal

11

Caveman

Shorter replies, about 65% fewer tokens.

github.com/JuliusBrussee/caveman

12

Awesome Claude Skills

A curated list of even more.

github.com/ComposioHQ/awesome-claude-skills

Installing them

Each repo's README has its own install steps. Start with one or two that match what you build, not all twelve at once.
